

CSTEP presents a fortnightly collection of climate-related news covered by popular news media houses in India, China, USA, South Africa, Russia, UK, Australia and Brazil. These links connect to a range of discussions taking place globally on climate matters in the period which will lead up to the Paris COP-21 Meeting. This document will give readers insights into the national conversations, international discussions and pressures on each country regarding action on climate change.

Country	Publications	National Politics	International Politics	Diversement	National Commitments/INDC	GHG Emissions	Op-Eds/Editorials
