

CSTEP presents a bi-monthly collection of climate-related news covered by popular news media houses in India, China, USA, South Africa, Russia, UK, Australia and Brazil. These links connect to the range of discussions taking place globally on climate matters in the period leading up to the Paris COP-21 Meeting, giving readers insights into the national conversations, international discussions and pressures on each country regarding action on climate change.

Country	Publications	National Politics	International Politics	Diversement	INDC	GHG Emissions	Op-Eds/Editorials
