

Pre-bid Meeting EU Solar Biomass Project

Date: 10 January 2017

Venue: CSTEP, Bengaluru

A global tender has been floated in both national and international dailies to identify potential Engineering, Procurement and Construction (EPC) firm for implementation of a 3 MW solar thermal biomass hybrid power plant at Barun, Aurangabad district, Bihar. As part of the process, a pre-bid meeting was held to address the queries raised by prospective bidders on bid documents before submission of bids. The date of the pre-bid meeting was conveyed to all prospective EPC firms interested to undertake EPC activities. Further, CSTEP requested all these firms to provide their queries (if any) 3-4 days prior to the pre-bid meeting.

Representatives from CSTEP, BSPGCL, consultancy firms and bidders participated in this meeting. As indicated above, all prospective bidders had shared their queries prior to the meeting. The queries were addressed in detail by CSTEP representatives during the meeting. The points discussed in the meeting were recorded and shared with all the bidders. Bidders are expected to prepare the bids based on the clarifications provided by CSTEP and submit them within the timelines set for the process.
